

Young Carers of Parents Inventory (YCOPI-R)

An empirically validated measure of the impact of caregiving on the young carer which can be used with youth across different caregiving contexts.

Young Carers of Parents Inventory (revised): A Validated Measurement

Young people who have a family member with an illness or disability often assume responsibility for their care and have been referred to as young caregivers.

The YCOPI-R is available now for purchase as a licensed downloadable file. To purchase, choose the category of intended use (General or Research & Teaching Only) from the menu on the right of this page.

License terms and conditions apply, so please read these carefully on the product page.

Select your desired licence and number of uses (units) and continue to check-out.
